Re: FedEx Freight East  
Request for Waiver/Reduction of Part 90  
Application Fees  
Fee Control No. 0303218130094001

Dear Ms. Wilson:

This is in response to your request dated March 27, 2003, filed on behalf of FedEx Freight East (FedEx) for a reduction of the application fees associated with filing waivers of the time requirements for filing FCC Form 601, Schedule K, "Schedule for Required Notifications for Wireless Services" (Schedule K Notification), under section 1.946(d) of the Commission's rules.<sup>1</sup> Our records reflect that you have paid the \$150.00 application fee associated with each of the 38 requests for waiver of the time requirements for filing the Schedule K Notifications, for a total of \$5,700.00.

In your request for a reduction of the waiver application fees, you state that over the past year, FedEx has been in the process of acquiring American Freightways, Inc. (American) and transferring American's Part 90 FCC licenses into FedEx's name. As part of that process, you discovered that Schedule K Notifications had not been filed for 38 of the Part 90 licenses and that the due date for filing the notifications under section 1.946(d) had passed. You state that the "changeover" from American to FedEx "created a period of disorder within the company." You state that the Schedule K Notification filing requirement "was just being established less than one year subsequent to the grant of each of these [38] licenses and that no construction reminder notices had been mailed out by the FCC." You state that you are aware of similar instances in which licensees were

---

<sup>1</sup> 47 C.F.R. §1.946(d) states that "[a] licensee who commences service or operations within the construction period or meets its coverage or substantial service obligations within the coverage period must notify the Commission by filing FCC Form 601. The notification must be filed with the Commission within 15 days of the expiration of the applicable construction or coverage period."

unfamiliar with this new construction requirement and that it is your understanding that "the FCC is getting bombarded with a multitude of waiver requests on this issue." You state that as a result, the Commission's Consumer Information Bureau (CIB) instructed you "to make the [section 1.946(d)] waiver request 'short and sweet' by merely stating that the licensee certifies to the system being constructed within the required time period and that a waiver of 1.946(d) is being requested so notification of construction can be provided."<sup>2</sup> You state that FedEx drafted its section 1.946(d) waiver request according to CIB's instructions "and all thirty-eight of the 38 call signs were encompassed onto one filing." You state that "\$5,700.00 is an excessive amount for this one small filing" and that the Commission, in reviewing FedEx's request for a waiver of the application fees for this filing, should "consider the fact that the Schedule K notification was just being established less than one year subsequent to the grant of each of these thirty-eight licenses and that no construction reminder notices had been mailed out by the FCC."

The Commission has discretion to waive filing fees upon a showing of good cause and a finding that the public interest will be served thereby. *See* 47 U.S.C. §158(d)(2); 47 C.F.R. §1.1117(a); *Establishment of a Fee Collection Program to Implement the Provisions of the Consolidated Omnibus Budget Reconciliation Act of 1985*, 5 FCC Rcd 3558, 3572-73 (1990). We construe our waiver authority under section 8 of the Communications Act, 47 U.S.C. §158(d)(2), narrowly and will grant waivers on a case-by-case basis to specific applicants upon a showing of "extraordinary and compelling circumstances." *See Establishment of a Fee Collection Program to Implement the Provisions of the Consolidated Omnibus Budget Reconciliation Act of 1985, Report and Order*, 2 FCC Rcd 947, 958, para. 70 (1987); *Sirius Satellite Radio Inc.*, FCC 03-135, 2003 WL 21402609, para. 11 (released: June 19, 2003).

We find that FedEx has failed to establish good cause for waiver of the application fees. That American may not have been aware of or understood the Commission's rules regarding the Schedule K construction notification requirements and that the company was in a period of "disorder" provide insufficient grounds for a grant of your request for relief. Following notice and comment, the Commission adopted the rules implementing the construction notification requirement for the wireless radio services and those rules were subsequently published in the Federal Register in accordance with the requirements of the Administrative Procedure Act.<sup>3</sup> The requirement that licensees for particular

---

<sup>2</sup> Our records reflect, and you subsequently confirmed, that your recollection is based on a telephone conversation with Commission staff on February 26, 2003. We note that the Commission's recording of that conversation does not reflect any specific substantive discussion of the waiver request at issue here, *i.e.*, your request for waiver of the application fees associated with the section 1.946(d) waiver request.

<sup>3</sup> *See Biennial Regulatory Review - Amendment of Parts 0, 1, 13, 22, 24, 26, 27, 80, 87, 90, 95, 97, and 101 of the Commission's Rules to Facilitate the Development and Use of the Universal Licensing System in the Wireless Telecommunications Services, Report and Order*, 13 FCC Rcd 21027 (1998) (*ULS Report and Order*), 63 FR 68904 (1998); *see also* 5 U.S.C. §§ 552(a) and 553.

wireless services file Schedule K construction notifications went into effect on July 1, 1999 or six months after the commencement of application processing in the Universal Licensing System (ULS),<sup>4</sup> thereby providing licensees sufficient time to become familiar with the new rules. In addition, the Commission posted the *ULS Report and Order*, the reconsideration of the *ULS Report and Order*, all Public Notices pertaining to ULS (including those Public Notices that explained and clarified the new construction notification requirements<sup>5</sup>), and other related documents on the Commission's ULS homepage.<sup>6</sup> Further, the Commission has repeatedly stated that its wireless service licensees are fully responsible for knowing and complying with the Commission's rules.<sup>7</sup> We therefore find that your assertions that the construction notification requirements were new and that American was unable to comply because it was in a "period of disorder" do not support FedEx's request for application fee relief.

We also find unpersuasive as a ground for waiver of the application fees the assertion that American may not have received notification from the Commission of the licensee's construction deadlines. In the *ULS Report and Order*, the Commission emphasized "that the notification procedure adopted here is not intended to replace the basic construction and coverage requirements set forth in the Commission's rules."<sup>8</sup> The Commission explained that:

---

<sup>4</sup> See Public Notice, *Wireless Telecommunications Bureau Clarifies Construction Requirements for the Private Radio Services*, 18 FCC Rcd 3322, 3322 (2003) (2003 Public Notice).

<sup>5</sup> For example, the 2003 Public Notice, in addition to clarifying the construction requirements, provided the specific Commission website location that licensees may query to determine whether the licensee is subject to an impending construction deadline and therefore subject to a notification requirement. *Id.*

<sup>6</sup> See Public Notice, *Wireless Telecommunications Bureau (WTB) Implements Phase III of Three-Phased Deployment of the Universal Licensing System (ULS) for Land Mobile Radio Services on December 4, 2000*, 15 FCC Rcd 22013 at n.1 (2000) (2000 ULS Public Notice).

<sup>7</sup> *Biennial Regulatory Review - Amendment of Parts 0, 1, 13, 22, 24, 26, 27, 80, 87, 90, 95, 97, and 101 of the Commission's Rules to Facilitate the Development and Use of the Universal Licensing System in the Wireless Telecommunications Services, Memorandum Opinion and Order on Reconsideration*, 14 FCC Rcd 11476, 11485 (1999).

<sup>8</sup> *ULS Report and Order* at 21075.

even if a licensee does not receive a reminder letter, it remains obligated to meet its construction and coverage benchmarks and cannot cite the lack of notification as an excuse for non-compliance. The licensee is solely responsible for complying with its construction and coverage requirements.<sup>9</sup>

The Commission's issuance of notifications of upcoming construction deadlines is intended as a convenience to licensees<sup>10</sup> and does not replace the licensee's responsibilities under our rules. Therefore, for the same reasons that the lack of a reminder letter from the Commission does not excuse a licensee's non-compliance with the construction notification requirement, we find that the possibility that American may not have received such reminder letters from the Commission does not support your request for a waiver of the associated application fees. Further, the fact that licensees may be permitted to list all stations for which they request a section 1.946(d) waiver on the same form (and are thereby relieved of the burden of filing multiple section 1.946(d) waiver requests) is not a sufficiently compelling reason to justify a waiver of the Congressionally-established application fees associated with 38 such waiver requests. We therefore deny your request for application fee relief.

If you have any questions concerning this matter, please contact the Revenue & Receivable Operations Group at (202) 418-1995.

Sincerely,

Mark A. Reger  
Chief Financial Officer

---

<sup>9</sup> *Id.*; see also 2000 ULS Public Notice at 22022 (reiterating that licensees are obligated to provide construction notification regardless of whether they receive a reminder letter).

<sup>10</sup> *ULS Report and Order* at 21075.

RE: Reduction of FCC Filing Fees

To Whom It May Concern:

I am the licensing representative for FedEx Freight East (FRN #0004-2526-31). As per FCC 1.1166, FedEx Freight East wishes to request a reduction of the regulatory fees which were paid with the filing of the FCC Form 601 Schedule K Required Notice of Construction on March 20, 2003. Please refer to Attachment A for the individual FCC file numbers.

Over the past year FedEx Freight East has been in the process of acquiring American Freightways Inc. The Licensing Assistance Office (LAO) was contacted by Michael A. Gwatney, security systems coordinator for FedEx Freight East, to initiate proceedings to have all of American Freightways Inc.'s thirty-nine Part 90 FCC licenses put into FedEx Freight East's name. It was discovered while researching the FCC's Universal Licensing System (ULS) database that thirty-eight of the licenses did not reflect a construction build-out notification date. These thirty-eight licenses were past their year time-period as per FCC 1.946(d) in which to submit this notification. In order to be in compliance, FedEx Freight was required to file the notices of construction requesting a waiver of FCC 1.946(d) on each of the thirty-eight callsigns. The FCC charge for a waiver request in Part 90 Land Mobile is \$150.00 per callsign. The total cost of this filing came to \$5,700.00.

Each of these licenses granted within a time period of approximately one month between May 23, 2001 and June 25, 2001. This time period was after the FCC's conversion over to the new ULS, but prior to when enforcement of the filing of the Schedule K began. Currently, the FCC mails out construction reminder notices ninety days prior to a licensee's year deadline. The FCC did not begin to issue these reminder notices until roughly around April of 2002. A review of each of these thirty-eight licenses on ULS shows that no construction reminder notifications were ever sent out. Ninety days prior to the deadline dates for these licenses would have been in February and March of 2002. The thirty-ninth license that American Freightways Inc. holds; WPTH298, was granted a few months after the others on October 2, 2001. A construction reminder notice was mailed out for this particular callsign; thus resulting in my client properly submitting the Form 601 Schedule K notice of construction. Understandably, the changeover

ACCOUNT-PROCESSING  
GROUP-DPT/RPT/TMT

2003 APR - 1 P 7:41

RECEIVED  
FCC

RECEIVED JUN 11 2003

from American Freightways to FedEx Freight created a period of disorder within the company.

LAO has dealt with numerous instances similar to this where licensees simply were not aware of this new construction notification requirement. Evidently, the FCC is getting bombarded with a multitude of waiver requests on this issue. As a result, we were instructed by the Consumer Information Bureau (CIB) to make the waiver request "short and sweet" by merely stating that the licensee certifies to the system being constructed within the required time period and that a waiver of 1.946(d) is being requested so notification of construction can be provided. FedEx Freight East's waiver request was drawn up in correspondence to the CIB's instructions and all thirty-eight of the callsigns were encompassed onto one filing. A copy of this filing and the waiver request are attached.\*\*

FedEx Freight East feels that \$5,700.00 is an excessive amount for this one small filing and we are respectfully requesting a reduction of the \$150.00 per callsign fee on this application. We ask you to please consider the fact that the Schedule K notification was just being established less than one year subsequent to the grant of each of these thirty-eight licenses and that no construction reminder notices had been mailed out by the FCC. If you have any questions or should require additional information, please don't hesitate to contact either myself or Michael Gwatney. Michael's voice number is 800-874-4723, ext. 2389. His fax number is 870-365-4096. His email address is <[Mike.Gwatney@freight.fedex.com](mailto:Mike.Gwatney@freight.fedex.com)>. My contact information is contained at the top of the first page in the LAO letterhead. Thank you for your consideration in this matter. We anxiously await your response.

Sincerely,

Judith B. Wilson  
LAO Manager

1 1st buildout/coverage requirements for the referenced system have been met. (List call signs in 2a.)

Satisfaction of Buildout/Coverage Requirements (Market-based services and State License Radio Service (SL) only)

The purpose of this submission: Enter one purpose only - 1, 2, 3, 4, I, S, D, G or H (S) See below and refer to instructions.

1) Purpose

Schedule for  
Required Notifications for Wireless Services:

Approved by OMB  
3060 - 0798  
See 601 Main Form  
Instructions  
For public burden estimate

CC 601  
Schedule K

**General Certification Statements.**

- 1) The applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application.
- 2) The applicant certifies that grant of this application would not cause the applicant to be in violation of any pertinent cross-ownership, attribution, or spectrum cap rule.  
\*If the applicant has sought a waiver of any such rule in connection with this application, it may make this certification subject to the outcome of the waived request.
- 3) The applicant certifies that all statements made in this application and in the exhibits, attachments, or documents incorporated by reference are material, are part of this application, and are true, complete, correct, and made in good faith.
- 4) The applicant certifies that neither the applicant nor any other party to the application is subject to a denial of Federal benefits pursuant to §5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 862, because of a conviction for possession or distribution of a controlled substance. This certification does not apply to applications filed in services exempted under §1.2002(c) of the rules, 47 CFR § 1.2002(c). See §1.2002(b) of the rules, 47 CFR § 1.2002(b), for the definition of "party to the application" as used in this certification.
- 5) The applicant certifies that it either (1) has a current Form 602 on file with the Commission, (2) is filing an updated Form 602 simultaneously with this application, or (3) is not required to file Form 602 under the Commission's rules.
- 6) The applicant certifies that the facilities, operations, and transmitters for which this authorization is hereby requested are either: (1) categorically excluded from routine environmental evaluation for RF exposure as set forth in 47 C.F.R. 1.1307(b), or, (2) have been found not to cause human exposure to levels of radiofrequency radiation in excess of the limits specified in 47 C.F.R. 1.1310 and 2.1093, or, (3) are the subject of one or more Environmental Assessments filed with the Commission.

**Signature**

1) Typed or Printed Name of Party Authorized to Sign

First Name:	MI:	Last Name:	Suffix:
MICHAEL	A	GWATNEY	

52) Title: **SECURITY SYSTEMS COORDINATOR**

Signature:	53) Date:
<i>Michael A Gwatney</i>	

**Failure To Sign This Application May Result In Dismissal Of The Application And Forfeiture Of Any Fees Paid.**

Upon grant of this license application, the licensee may be subject to certain construction or coverage requirements. Failure to meet the construction or coverage requirements will result in termination of the license. Consult appropriate FCC regulations to determine the construction or coverage requirements that apply to the type of license requested in this application.

**WILLFUL FALSE STATEMENTS MADE ON THIS FORM OR ANY ATTACHMENTS ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. Code, Title 18, §1001) AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. Code, Title 47, §312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, §503).**
